New Zealand's Place in the World

Aotearoa Wave and Tidal Energy Association

4 Fourth Annual Conference

**Monday & Tuesday
19–20 April 2010
08:30–18:00**

Oceania Room,
Te Papa Tongarewa,
Wellington

AWATEA's 4th Annual Conference will be bigger and better than our previous three conferences. Not only will we be featuring trade displays for the first time but the conference will be run over two days. The first day will be devoted to presentations by New Zealanders on domestic activities in marine energy, including regulators and policy analysts, industry participants and particularly device and project developers.

The second day will be devoted to a wide-ranging view of international marine energy developments from the members of the Ocean Energy Systems Implementing Agreement of the International Energy Agency (OES-IA), of which New Zealand is a member. These presentations will give registrants the opportunity to hear directly from key governmental representatives of the OES-IA countries.

Featuring:

2 Keynote speakers, including one from the United Kingdom

DAY 1	Mon 19 April 2010 Presentations by New Zealand device and project developers, industry participants, regulators and policy analysts
-----------------	---

DAY 2	Tue 20 April 2010 International Activities (presentations by the country representatives of the Ocean Energy Systems Implementing Agreement of the IEA (OES-IA))
-----------------	--

FOUNDATION SPONSORS

Call for Papers

In view of the importance of this meeting, the AWATEA Executive is considering publishing a set of papers from this conference. The Executive welcomes offers of written papers/presentations from people interested in presenting to a dedicated marine energy audience. The Executive is keen to receive papers from device and project developers, particularly those seeking to deploy in New Zealand waters. Other themes that are welcome include papers on the economic opportunities/benefits of marine energy, issues relating to environmental performance, resource consenting, space and resource allocation. The Executive would also like to hear from other groups that may be indirectly benefitted or affected by marine energy, including the fishing industry, surfing community and others.

Offers of papers should be sent to:

John Huckerby at international@awatea.org.nz

by 22 January 2010.

The Executive will then make decisions on the content of sessions and advise whether presentations have been accepted.

Registration

Members \$600.00 + GST

Non-members \$800.00 + GST (numbers limited)

The registration fee includes:

- Conference pack
- Morning coffee, lunch, afternoon tea
- Complimentary drink at the networking social following the first day
- Early access for registrants to presentations on the AWATEA website, following the conference.

Registration form and further details available on AWATEA website.
